Lawsuit and Important Info

As many of you know, the Association filed a lawsuit against certain members and a non-member claiming damage to the LFPOA. In the interest of transparency, and to dispel misstatements and half-truths on social media and other public forums, the Board is providing an explanation of the general nature of the case, the substance of the allegations in the complaint and other filings in the court, and the status of the litigation.

Long-Term Interests of the Members

Only two members applied to run for Board positions last December. This appears to be a consequence of the Defendants' actions, which have undoubtedly cast a dark cloud over the LFPOA. It is completely understandable that many people have reservations about risking being the subject of false, malicious accusations. Hopefully, as the truth is fully exposed, more members will feel comfortable running for Board positions in the future. Contd. on pages 3 and 4

Lawsuit and Important Info contd.

The LFPOA believes that if it chooses to ignore the serious defamatory statements explained below, the defamatory statements will continue. Ultimately, no one will want to serve on the Board, and everyone will suffer.

In addition, the Association contends that the Defendants' actions jeopardized the Association's tax-exempt status under § 501(c)(7) of the IRS code. Any money that goes to Washington D.C. paying taxes is less money to spend on the neighborhood. And a lower net income figure after paying taxes means possibly increasing each member's dues.

The entire situation tends to cast Lake Forest in a negative light. If no one stands up to the false statements, the neighborhood's image will continue to be damaged, which over time, will likely hurt property values and the quality of life in the community. This is an unacceptable risk for the Association.

Looking ahead, LFPOA believes that the lawsuit is in the best long-term interests of the members and future property values.

Nature of the Case

The Association sued the Defendants for defamation and conspiracy to defame. A "Defamatory Statement" is a statement that "tends to harm the reputation" of the Plaintiff and "lowers the community's judgment of [the Plaintiff's] worth or character or discourages others from associating with" the Plaintiff. A false statement can be defamatory if it "tends to impute fraud, dishonesty, or reflect shame" on the Plaintiff. There are two species of defamation – libel (written defamatory statements) and slander (verbal defamatory statements).

Complaint, Motions, and Orders

Here is a hyperlink to the actual lawsuit so you can read it for yourself: <https://www.lakeforestdaphne.com/court-documents.html> The Association strongly encourages the members to read the entire complaint instead of relying on self-serving comments on social media. The Association has also included each pleading filed by the parties, along with the circuit court's orders: <https://www.lakeforestdaphne.com/court-documents.html>

To briefly summarize some of the allegations, the Association sued the Defendants for alleged defamatory statements, including those made to the Alabama Attorney General ("AG") and the Internal Revenue Service ("IRS"). The Association alleged:

- The Defendants created an illusion of a criminal enterprise in an effort to take over the Board by covertly working together to entice members to sign a petition and believed that the members were more likely to sign the petition if the members believed that the false statements about the Board were actually true.
- The Defendants maliciously accused the Association and its Board of crimes without any factual support to believe a crime had been committed.
- The Defendants advocated for a criminal investigation of the Board and Association.
- The Defendants caused hundreds of letters to be sent to the IRS which, in turn, caused the IRS to perform a three-day audit of the Association, forcing the Association to pay accountants and attorneys to respond to the audit.
- The Association operates under § 501(c)(7) of the IRS code and the Defendants' actions put its tax-exempt status at risk. The Association claims that there would have been serious financial consequences had it lost its § 501(c)(7) status.

Lawsuit and Important Info contd.

Some of the context for the allegations in the complaint can be found on NBC 15's website, which the Association also cited in its complaint:

<https://myNBC15.com/newsletter-daily/community-group-sends-thousands-of-complaints-to-irs-alabama-ag-about-lake-forest-hoa>.

<https://myNBC15.com/news/local/daphne-residents-unhappy-with-homeowners-association>.

It appears that the Defendants disabled their website, www.lakeforeststrong.com, after the lawsuit was filed, but the allegation in paragraph 27 in the complaint states that the “Defendants published a video of an unidentified person purportedly mailing hundreds of letters to the AG and the IRS. The Defendants intentionally misled the community and local media that hundreds of LFPOA members submitted criminal complaints to the criminal agencies.”

LFPOA Asked the Defendants for Retractions

The Association claims that it gave the Defendants a fair opportunity to retract their defamatory statements prior to the complaint being filed. As stated in paragraph 37 in the complaint, the Association contacted the Defendants seeking a retraction of the defamatory statements under Alabama law and the Defendants failed to properly retract their defamatory statements.

The Association's position is that the Defendants are responsible for the lawsuit and the legal costs. If the Defendants truly want to reduce further legal costs, they can begin by clearly and unequivocally issuing public retractions consistent with Alabama law. At a minimum, the Defendants can publicly retract and withdraw all verbal and written statements to the AG, IRS, NBC 15, and others that the Association and Board committed any crimes, violated the IRS code or associated regulations, engaged in fraud, or otherwise acted dishonestly or unethically.

Status of the Litigation

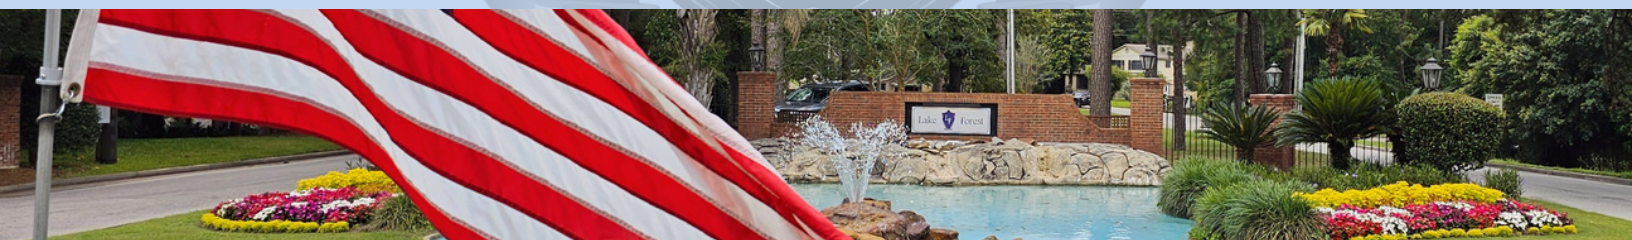

As to the status of the litigation, the circuit court dismissed the complaint prior to any discovery taking place. In other words, to be crystal clear, the Defendants have not testified under oath about the allegations. The Defendants have not produced any documents about the allegations, such as their internal communications about the alleged conspiracy to defame the Association and Board. The Defendants have not produced evidence that they believed an actual crime occurred or that the Association was not in compliance with § 501(c)(7) and related regulations. The Association has not been able to send any subpoenas to non-parties for records.

The Association has chosen to appeal the circuit court's order dismissing the case without any discovery. The Association believes this is the best course of action for the long-term interests of the members.

Closing Message

The illegitimate attacks against our Association and its volunteer Board are harmful to the neighborhood. The Association will not remain silent when serious false and malicious defamatory statements are made against the Association. The Association hopes this information provides some clarity on the events surrounding the pending litigation. Let's work together to stop the reckless, uninformed posts on social media and create a better image for Lake Forest.

[NOTE: The above article is not intended to give the Association's members or others legal advice. Members should engage their own independent attorney for legal advice on the law of defamation or any other legal questions.]

LFPOA POOL USE MEMBER POLICY AND REGULATIONS

Our pool use policies and regulations are under review by our board and our management team to provide recommended changes that will strive to improve our member experience and allow our community to create and maintain a safe, family friendly environment at our pools.

Currently all our Pools are posted with signage that include our current pool use rules and also indicate that use is “at your own risk”.

Recently a Pool Committee was established to review our pool use rules and regulations and to bring forth plausible policy changes. The committee coalesced around a few items that we could implement in the short term and long term. The committee gathered insight from a guest speaker that had served our POA previously as a pool Marshall who provided many insights and observations that were helpful.

Any change to one of our amenity items, including our Pools, should, when implemented strive to “improve the member experience”. Changes are being considered as a response to longstanding systemic behavior and misuse complaints from members.

Member review feedback for pool policy changes is requested.

Member suggestions and feedback can be provided by attending a POA Regular Meeting during the Member Comments portion of the meeting or by submitting your comments via email at this address: MemberQuestions@LakeForestDaphne.com

Goal: provide a safe, clean and family friendly environment for our members and their guests to enjoy our pools

Policy changes that could result in additional operating costs would need to be budgeted for in upcoming years. Policy changes attempted to be implemented for this current pool season could result in an unplanned budget expense for this current year.

“member” is defined as:

1. a homeowner resident member in “good standing”
2. or a “renter” that has been registered with the office and purchased a “non-voting membership”

Note: a “renter” can only purchase a “non - voting membership” if and only if, the actual homeowner of the residence is also a “member in good standing”; which is validated by office staff at time of purchase. The \$100.00 rate for a “non-voting membership” is being re-visited as part of this review and may be subject to a future cost increase. idgewood Pool.

News from our State House Representative Matt Simpson

In the weeks after a legislative session ends, we are able to see the real-time results of some of the most meaningful bills that were passed during those months in Montgomery.

This year, we were able to put extra protection in place for two groups who are often at great risk in our community -first responders and grandparents facing domestic violence.

First, to safeguard our first responders who find themselves on the frontlines of the fight against the spread of the deadly drug fentanyl, I sponsored a bill that will make it a crime to knowingly, negligently, or intentionally injure a first responder with a controlled substance such as fentanyl.

Early in the session, we passed my fentanyl trafficking bill which put in place mandatory minimum sentences for those who sell and or distribute this highly deadly drug in our state.

With that, the people of Alabama are now better protected from the dealers of death who are pushing this drug scourge on our streets and on our children.

As we wrote the bill and talked to those on the frontlines of this fight, we realized that it was necessary to also protect the people who are protecting us. That is what Act Number 2023-486 does.

Any injury to a first responder caused by ingestion, inhalation, or contact with the controlled substance will result in a felony charge with the level of felony charge depending on the level of harm caused by the first responders' exposure to the harmful substances. It goes without saying that if one of our heroic law enforcement officers, EMTs, or other first responders is killed through this interaction that it will automatically be raised to a Class A Felony, our highest-level felony.

This is an extra layer of protection for officers, doctors and nurses and other first responders who may be exposed to dangerous drugs every day in their workplace.

News from our State House Representative contd. Matt Simpson

In a similar theme of trying to protect our people across the state, we were also able to layer a blanket of protection on some of the most vulnerable members of our community – grandparents.

The passage of Act Number 2023-494 has placed grandparents on the list of potential victims of domestic violence, along with spouses, children, household members and dating partners.

I watched in shock and horror with many in our community as the tragic deaths of four members of a Daphne family unfolded in February this year.

In that case, a 21-year-old was charged with capital murder in the deaths of his brother, a family friend and his grandparents, at the home in which he lived with them.

At the time, there were no legal means to put a no-contact provision in place to keep the man from returning to the home after he was released on bond for a misdemeanor charge of criminal mischief.

This was something that happened right here in Baldwin County, in the heart of Daphne and my district, and it was something that I could not let just happen and not try to take some legislative action to fix it. No family should ever have to go through the tragedy that happened here.

Now, with the bill's passage, grandparents have the same protections as other victims of domestic violence living in the same household. This will hopefully help prevent future tragedies.

Even with summer in full swing, and the regular session over, the work doesn't end for members of Alabama's House of Representatives and Senate.

Next month, we head into special session to redraw the state's congressional districts. We will also begin drafting legislation and looking at issues to address in the 2024 session.

If you have any questions or concerns or comments or want to raise an issue ... or if you just need to talk about something, that's what we're here for, so please reach out and give me a call or shoot me an email.

Matt Simpson is the Chairman of the Baldwin County Legislative Delegation and represents District 96 in the Alabama House of Representatives. He can be reached at mattsimpsonal96@gmail.com.

Golf Pro's Corner

BY TODD BAILEY, PGA

Summer is now in full swing! Here's a tip to enjoy these hot days; go to the beach, go to the pool, go out on a boat but my favorite, riding down a beautiful fairway in a golf cart. If you love golf as I do, prepare for the round and the heat will not be a problem. I first off, recommend riding and not walking in this heat. Get an ice chest from the 19th Hole Grill and fill it with plenty of water, powerade and some type of energy snack. Also, take a towel for your clubs and one just for you to wipe off perspiration. We have reusable Arctic Cooling towels in the pro shop that are perfect for this time of year. In addition, do not forget to dress for the heat – that's very important. Do these few things and you'll have a great time and maybe lower that score.

Our Member Guest hosted by the Men's Golf Association was held June 17th in a shamble format that counts both scores: Results: 1st Place Gross (156) – Robert James and Lane Blankenship, 2nd (159) Rich Edgeworth and Paul Smith

1st Place Net (152) – Mike McGhee and Chad Harper, 2nd (156) Jim Courtois and Joey Johnson and 3rd (also 156) Steve Scarcliff and Don Dixon. Congratulations to all our winners!!

Our first week of Junior Golf Camps was held June 6th – 9th and the kids had a blast while we sprinkled a little golf knowledge their way. Our next and final week of Summer camps will be July 11th – 14th from 8:30-11:00 Tuesday – Thursday, with the kids playing on the golf course on Friday beginning at 7:30 and ending at 10:00 with lunch. We still have spots open and we would love to have you join us!

Garden Club - Yard of the Quarter

BY JANE SPICIANNI

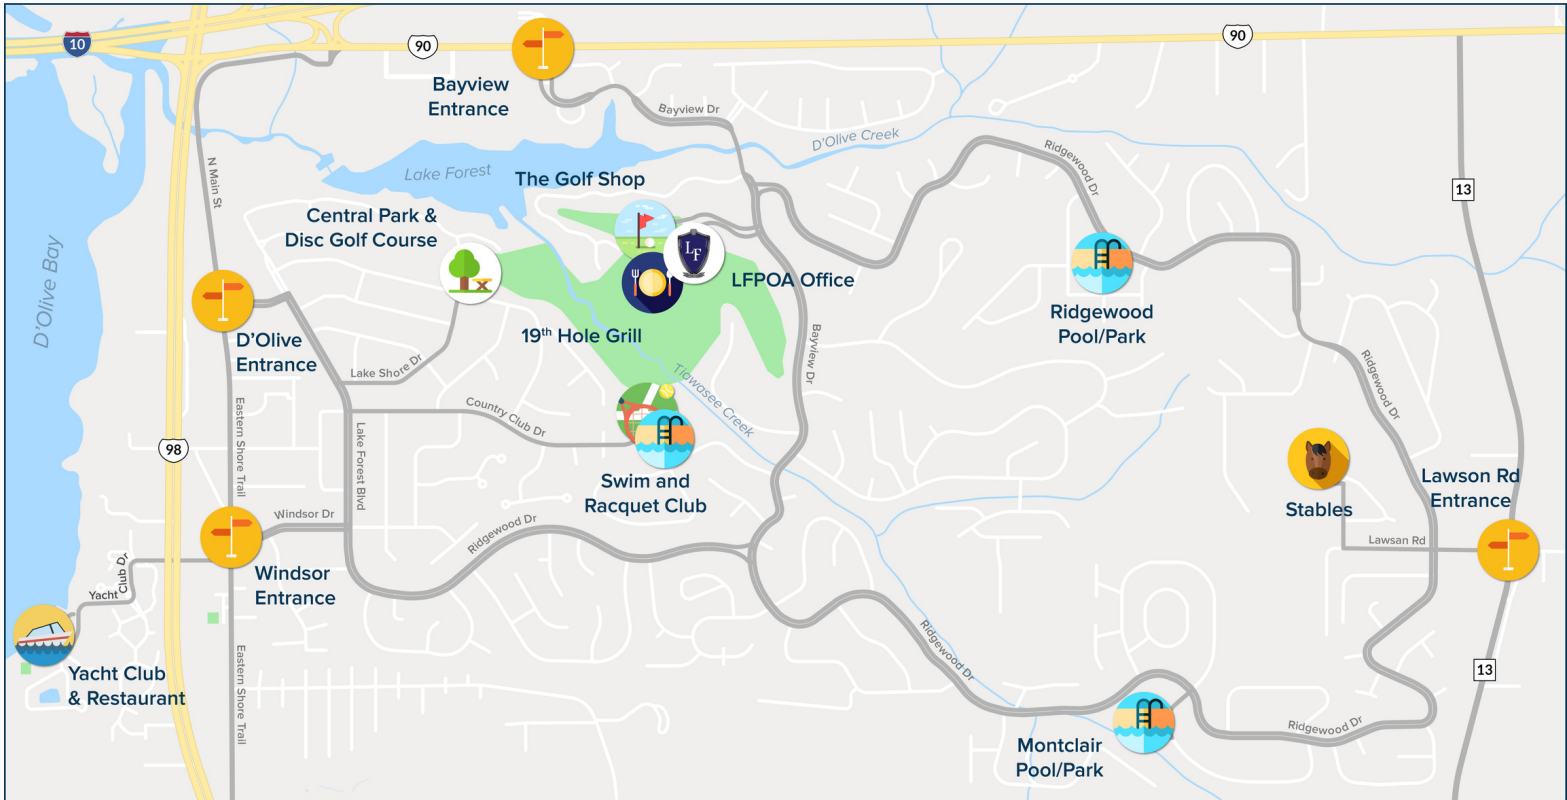

154 Rolling Hills Drive has been chosen as the summer yard of the quarter. These dynamic homeowners have added lush, beauty in the front and fun for the passing golfers. The front yard has gorgeous camellias in the winter time and now by adding the Calla lilies and the other bulbs, it is spectacular.

Rick and Sean Vand live here with her father Dick Radcliffe. Dick loves to keep busy. He is like an energizer bunny. The home is filled with his art and so is the local church recently. He has started doing wood sculptures on this trunk that is pictured here, as five wood sprites as he calls them. it is Cedarwood. This work takes hours and hours but he enjoys doing it. It is a work of joy for him Together these 3 homeowners have created a joy for the neighborhood.
